

1. Instead of the logo of car steering wheel comes our logo

2. Search Filter

2.1 Shrink the whole search filter a little

2.2. Instead of all cars - new cars, the vehicle category comes as in mobile.de

2.3. <https://suchen.mobile.de/fahrzeuge/detailsuche?dam=false&s=Car&vc=Car> You can use this page as a reference

3. Advertisement

3.1 with red dots come this information: TÜV: MM/YY (for Germany and Austria) (last inspection of vehicle - date only) for Switzerland MFK: MM/YY (date) the second detail of red point: the customer must choose by Zustand bei ADD the Car: Gut – Export – Unfall and the 3. Red line is

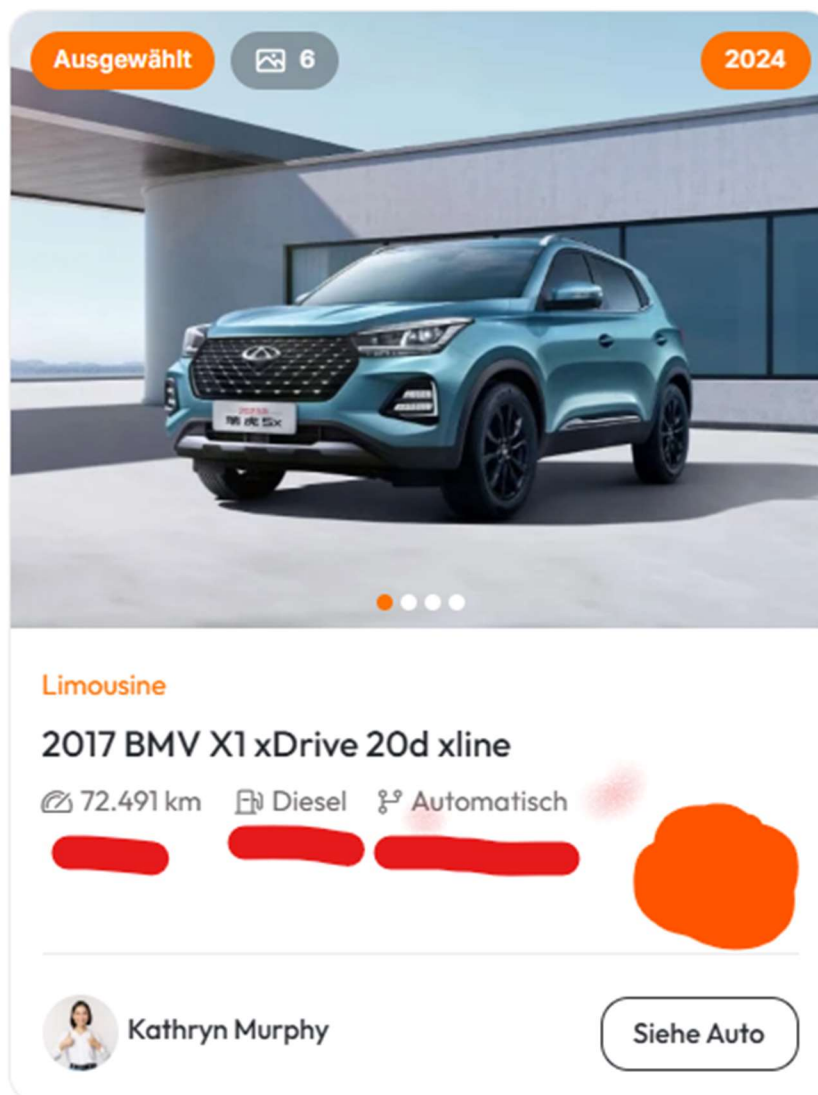

Vehicle body: Limousine, Kombi, SUV which choose

3.2. the orange dot should be the prize

3.3. When swiping sideways, the images should change

3.4. by clicking on the vehicle picture, the advertisement should open

3.5. below customer name should be written in lower case whether it is a private or dealer Privat or Händler

4. Language

4.1. The page should always be opened in German by default , it should not be Eng Ger, but whole word, these are 4 in total. Deutsch – Englisch – Französisch – Italienisch

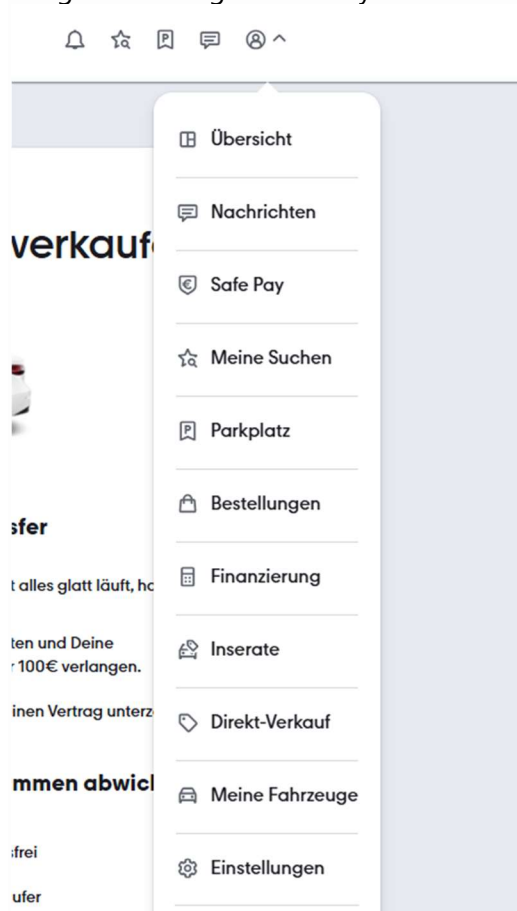

5. Price – Currency - Tax

5.1 for German and Austria the euro can be seen. When registering also adjust the currency accordingly by country, at Switzerland is Swiss franc and the sign for it does not exist it is only CHF

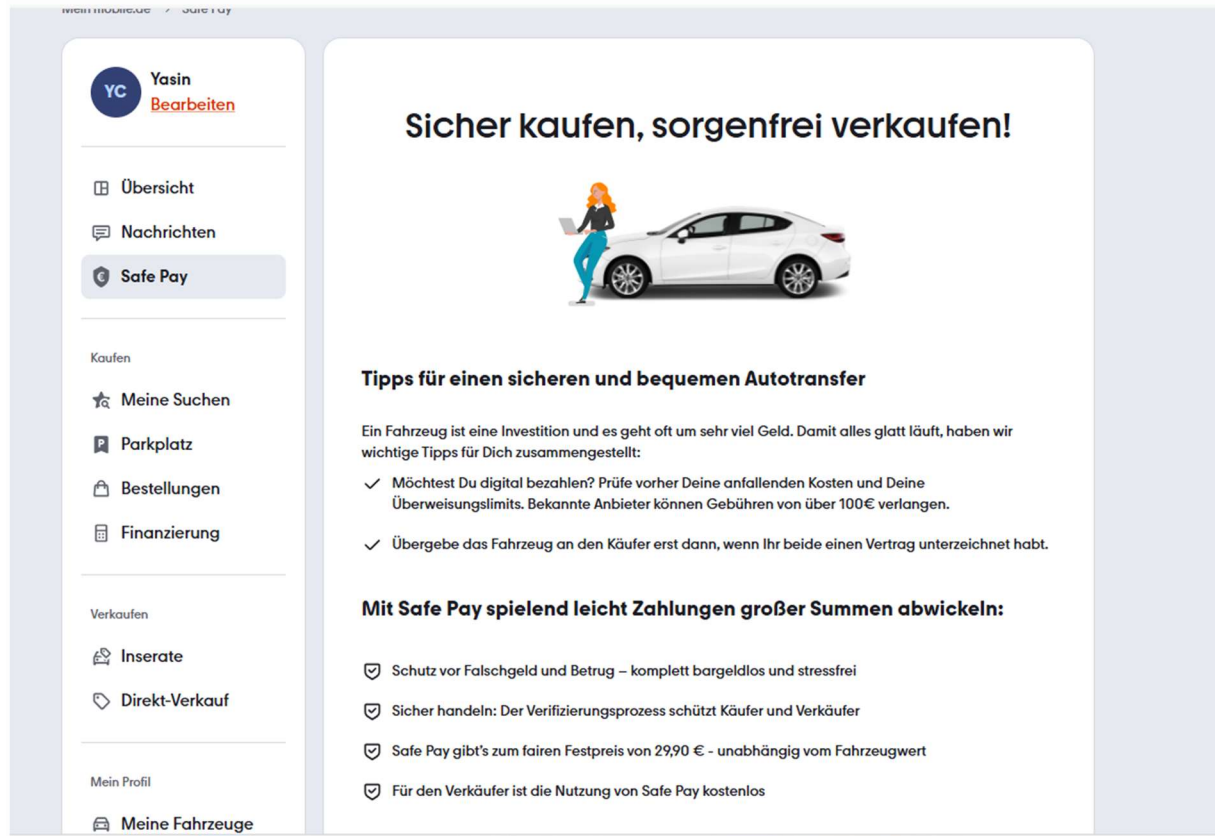

5.2. Private customers cannot choose tax when advertised, this is also not displayed when advertised. but with dealer the dealer is allowed to select incl. tax or normal with normal no the text for this is : MwSt ausweisbar

6. Profil – Privat Dashboard

when I click on the profile icon we only get profile and **log out** as a seller .. Please see the example image and change it similarly

Here is the dashboard of mobile. De
